

PRODUCT GUIDE · EVERY FEATURE, STEP BY STEP

Sarmaya Billing & Books

Bills, stock with expiry dates, customers and credit limits, cash and bank, bank reconciliation and proper double-entry accounts, for a Pakistani trading shop. Each step shows the real screen.

67 steps · desktop, staff view and phone · September 2026

Setting up a shop

Do these once. After that the shop only needs the daily screens.

☐ Put the app online

The owner or whoever set it up gives you one web address (a Vercel link). Open it in Chrome on the counter computer and on each phone.

☐ Set up the database, once

Only if you want phones and computers to share the same data. In Supabase → SQL Editor, paste the whole of `supabase/setup.sql` and press Run. That single file does everything; running it again is harmless. Then add these two keys in Vercel → Settings → Environment Variables and redeploy:

```
NEXT_PUBLIC_SUPABASE_URL=https://your-project.supabase.co
NEXT_PUBLIC_SUPABASE_ANON_KEY=your-anon-key
```

☐ Check the connection

Bottom left of the app it should say **Cloud sync live**. "Local only" means the keys are missing; "Offline · local data" means there is no internet at the moment. Billing keeps working either way.

☐ Sign in and change the PIN

Sign in as the super admin with PIN 7860, then Admin → User Accounts: change that PIN straight away and remove the demo people you don't need.

☐ Add your staff

Each person gets their own name, PIN and role. Operators make bills and take payments; managers also change prices, allow credit over the limit and see the accounts; admins can do everything.

☐ Put your shop on the bill

Admin → System & Backups: company name, address, phone, email and logo. These print on every bill.

☐ Enter your starting money

Same page, or Money → Opening balances: the cash in the drawer and the money in the bank on the day you start, and that date.

☐ Add your items

Items & Prices → New item for everything you sell, with its price. Tick "Track batch & expiry" for anything that expires, then Receive stock with batch numbers and expiry dates.

☐ Add customers and suppliers

Name and phone are enough. Give credit customers a limit if you want one. You can also import a list: Admin → Data Import (CSV).

☐ Install it on the phones

Android: Chrome menu → Install app. iPhone: Safari → Share → Add to Home Screen. It gets its own icon and opens even without signal.

☐ Take a backup

Admin → System & Backups → Export backup. Do it every week; it restores on any device.

What's in this guide

PART	WHAT IT COVERS	STEPS
1. Getting started	Sign in, put your shop's details on the bill, and give each person their own PIN.	4
2. Items, stock and godowns	The price list, receiving stock, batches with expiry dates, and more than one godown.	8
3. Customers and credit limits	Who you sell to, and how much credit each one may have.	2
4. Making a bill	The main job of the app, from New Bill to the printed invoice.	6
5. Credit, limits and payments	Bills on credit, the credit-limit check, and taking payments later.	8
6. Expenses, cash and the daily sheet	Every rupee that goes out, moving cash to the bank, and closing the day.	4
7. Money	How much is in the business, who owes you, and who you owe.	4
8. Bank reconciliation	Checking your books against the bank statement, line by line.	6
9. Accounts (double-entry books)	Proper books for the owner and the accountant, kept automatically.	8
10. Suppliers	What you owe the people you buy from.	1
11. Admin, backups and safety	Who did what, and who is allowed to do what.	2
12. The full trading suite	Everything a bigger operation needs, one tap away.	2
13. What staff see	The same app for a counter operator, with the owner-only parts hidden.	2
14. On a phone	The same screens at phone size. Install it from the browser to get an app icon and offline use.	10

Getting started

Sign in, put your shop's details on the bill, and give each person their own PIN.

1 Sign in

Each person picks their name, types their own PIN on the keypad and presses Unlock. What they can see and do depends on their role. Wrong PINs are counted; too many lock the account for a while.

The screenshot shows the Sarmaya mobile application interface for signing in. At the top left is the Sarmaya logo with the tagline "Billing & daily cash book". At the top right, it displays "PKT 08:11:31 PM" and a refresh icon. The main screen is titled "Sign In with PIN" with a subtitle "Select your assigned name from the directory and enter your 4-6 digit security PIN." Below this, there is a "FILTER BY ROLE" section with buttons for "All Roles", "Super Admin", "Operations Manager", and "Weighbridge Op". The "All Roles" button is selected. Below the filter, the "Select Your Name" section shows "Bilal Khan Mohmand -- (Super Admin)" with a person icon. Below the name, it says "Role: Super Admin". The "Enter Security PIN (4-6 digits)" section has a "Show Digits" link. Below the PIN input, there is a numeric keypad with buttons for digits 1-9, 0, a "Clear" button, and a "Back" button. At the bottom, there is an "Unlock ->" button.

2 Your shop details

Admin → System & Backups. The company name, address, phone, email and logo here are printed on every bill. Opening cash and opening bank are the money you start with on day one. App mode stays on Simple billing.

The screenshot shows the 'Administrator Control Center' form. It includes sections for Master Terminal PIN, Backup & Snapshots, Commercial Entity & Licensing, Master Data CSV Exports, and Database Table Purges. The form is for 'ROHAIL ZAMAN TRADERS' and contains fields for company details, login information, and various system settings.

3 Staff and PINs

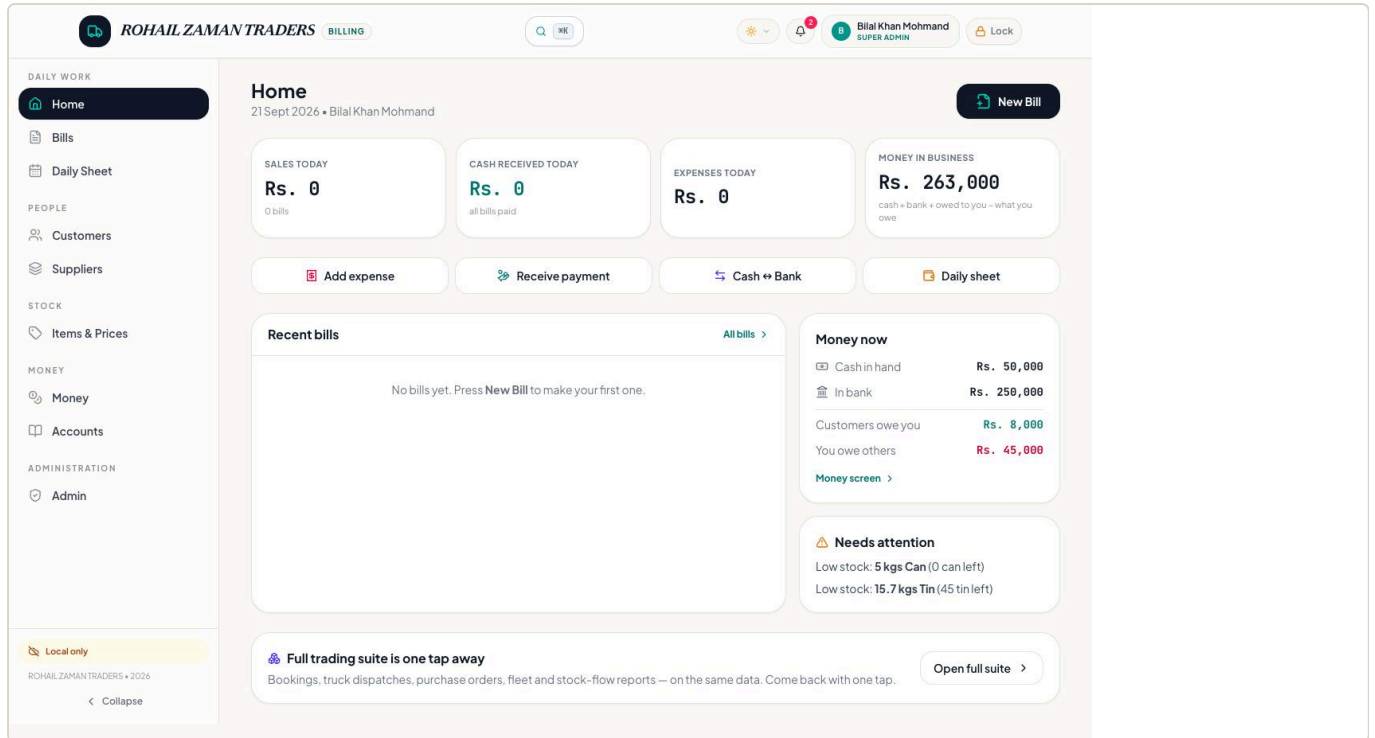

Admin → User Accounts. Add each person with their own PIN and a role: Operator (makes bills and takes payments), Manager (also prices, credit overrides, accounts), Admin (everything). Change the default PIN 7860 on day one.

The screenshot shows the 'User Accounts' table in the 'Administrator Control Center'. The table lists users with their roles, status, and last active time. The roles are SUPER ADMIN, OPERATIONS MANAGER, WEIGHBRIDGE OPERATOR, and AUDITOR / VIEWER. The status for all users is ACTIVE. The last active time for all users is 'Never signed in'.

USER & IDENTITY	ROLES & PERMISSIONS	STATUS & SECURITY	LAST ACTIVE	ACTIONS
B Bilal Khan Mohmand @superadmin • bilal@sarmaya.pk	• SUPER ADMIN	• ACTIVE	Never signed in	
R Rashid Minhas @rashid.ops • rashid@sarmaya.pk	• OPERATIONS MANAGER	• ACTIVE	Never signed in	
Z Zahid Yard Weighbridge @zahid.weigh • zahid@sarmaya.pk	• WEIGHBRIDGE OPERATOR	• ACTIVE	Never signed in	
A Auditor Ayesha @ayesha.audit • ayesha@external-audit.com	• AUDITOR / VIEWER	• ACTIVE	Never signed in	

4 Home

The first screen every day: today's sales, cash received, expenses and money in the business; the four everyday buttons; recent bills; and anything that needs attention, such as low stock.

Items, stock and godowns

The price list, receiving stock, batches with expiry dates, and more than one godown.

5 The price list

Items & Prices: every item with its fixed selling price and stock. The tin is red because stock is below its warning level.

Godowns

New item

Q

Search items

ITEM	PRICE	STOCK	SOLD (ALL TIME)	
15.7 kgs Tin per tin • cost Rs. 6,000	Rs. 6,535	45 tin	0	
2.5 kgs Can per can • cost Rs. 900	Rs. 1,037.5	600 can	0	
5 kgs Can per can • cost Rs. 1,800	Rs. 2,065	0 can	0	

6 Add an item

Name, what it is sold per (can, tin, bag, kg...), the fixed selling price, the cost price (for profit), stock on hand and the low-stock warning level.

The screenshot shows the 'New Item' dialog box in the Sarmaya application. The dialog has a title bar with a close button. Below the title, it says 'Each item has one fixed price; you can still change the price on any bill line.' The form contains the following fields and options:

- ITEM NAME:** A text input field containing '1 kg Pouch'.
- SOLD PER:** A dropdown menu set to 'pcs'.
- SELLING PRICE (RS.):** A text input field containing '450'.
- COST PRICE (OPTIONAL):** A text input field containing '380'.
- STOCK ON HAND:** A text input field containing '200'.
- WARN ME WHEN STOCK DROPS BELOW:** A text input field containing '20'.
- Track batch & expiry:** An unchecked checkbox with the label 'Track batch & expiry'. Below it, a small note reads: 'Receive stock with a batch number and expiry date. Bills use the batch that expires first and never sell expired stock.'

At the bottom of the dialog are two buttons: 'Cancel' and 'Add Item'.

7 Turn on batch and expiry

For goods that expire, like oil and ghee, tick "Track batch & expiry" on the item. From then on its stock is received in batches, each with its own expiry date.

The screenshot shows the 'Edit Item' dialog box in the Sarmaya application. The dialog has a title bar with a close button. Below the title, it says 'Each item has one fixed price; you can still change the price on any bill line.' The form contains the following fields and options:

- ITEM NAME:** A text input field containing '5 kgs Can'.
- SOLD PER:** A dropdown menu set to 'can'.
- SELLING PRICE (RS.):** A text input field containing '2065'.
- COST PRICE (OPTIONAL):** A text input field containing '1800'.
- STOCK ON HAND:** A text input field containing '0'.
- WARN ME WHEN STOCK DROPS BELOW:** A text input field containing '50'.
- Track batch & expiry:** A checked checkbox with the label 'Track batch & expiry'. Below it, a small note reads: 'Receive stock with a batch number and expiry date. Bills use the batch that expires first and never sell expired stock.'

At the bottom of the dialog are two buttons: 'Cancel' and 'Save changes'.

8 Receive stock

When goods arrive: quantity, batch number and expiry date. With the supplier and the cost, the purchase is also added to what you owe that supplier.

The screenshot shows a 'Receive stock' modal form. At the top, it says 'Add stock you bought or brought in. With a supplier and cost, it is also added to what you owe them.' The form has several input fields: 'ITEM' (a dropdown menu showing '5 kgs Can (batches)'), 'QUANTITY (CAN)' (a text input with '100'), 'DATE RECEIVED' (a date picker showing '21/09/2026'), 'BATCH NO.' (a text input with 'B-0926'), 'EXPIRY DATE' (a date picker showing '18/07/2027'), 'COST PER CAN (OPTIONAL)' (a text input with '1800'), and 'SUPPLIER (OPTIONAL)' (a dropdown menu showing 'Ahmed • Dalda Foods'). Below these fields, a message states 'Rs. 180,000 will be added to what you owe this supplier.' At the bottom, there are two buttons: 'Cancel' and 'Receive stock'.

9 Batches and expiry dates

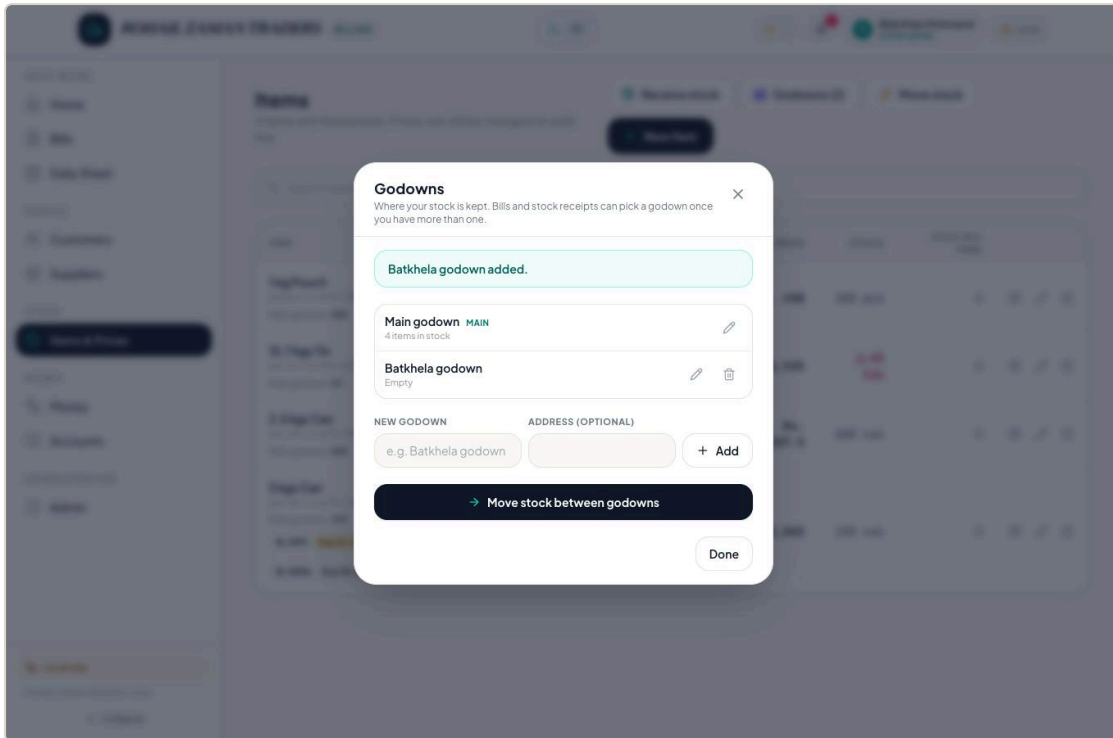

The item now shows each batch with its expiry. Amber means it expires within 30 days, red means expired. Expired stock is flagged and can never be sold.

The screenshot shows the 'Items' page in the ROHAIL ZAMAN TRADERS application. The page has a sidebar on the left with navigation options: 'Home', 'Bills', 'Daily Sheet', 'Customers', 'Suppliers', 'Items & Prices' (selected), 'Money', 'Accounts', and 'Admin'. The main content area shows a list of items with columns: 'ITEM', 'PRICE', 'STOCK', and 'SOLD (ALL TIME)'. The items listed are: '1 kg Pouch' (Rs. 450, 200 pcs), '15.7 kgs Tin' (Rs. 6,535, 45 tin), '2.5 kgs Can' (Rs. 1,037.5, 600 can), and '5 kgs Can' (Rs. 2,065, 150 can). The '5 kgs Can' item has a detailed view showing two batches: 'B-0911 Exp 16-10-2026 50 can' and 'B-0926 Exp 18-07-2027 100 can'. The 'Exp 16-10-2026' batch is highlighted in red, indicating it is expired.

ITEM	PRICE	STOCK	SOLD (ALL TIME)
1 kg Pouch per pcs • cost Rs. 380	Rs. 450	200 pcs	0
15.7 kgs Tin per tin • cost Rs. 6,000	Rs. 6,535	45 tin	0
2.5 kgs Can per can • cost Rs. 900	Rs. 1,037.5	600 can	0
5 kgs Can per can • cost Rs. 1,800 • batch & expiry	Rs. 2,065	150 can	0

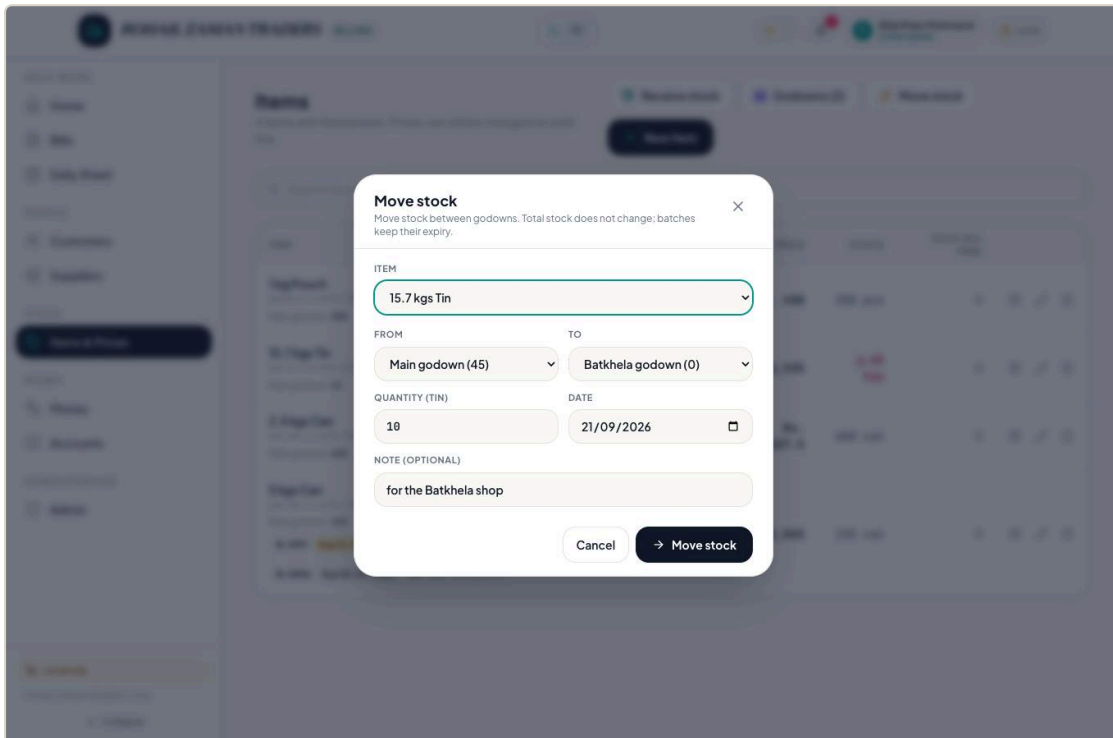

10 Godowns

If stock is kept in more than one place, add each godown. The main godown always exists; a godown holding stock can't be deleted.

11 Move stock

Move stock between godowns. The total never changes; batches keep their number and expiry.

12 Stock per godown

With two godowns, each item shows how much is in each place.

Customers and credit limits

Who you sell to, and how much credit each one may have.

13 Add a customer

Name and phone are enough. A credit limit is optional: leave it empty for no limit. With a limit, bills that would take them over it are stopped unless a manager allows it.

The screenshot shows a 'New customer' modal form overlaid on a blurred background of a software interface. The form has a title bar with 'New customer' and a close button. Below the title, a note states: 'Name and phone are enough. Everything else is optional.' The form contains several input fields: 'NAME' with the value 'Gul Traders', 'SHOP / BUSINESS NAME (OPTIONAL)' with the value 'e.g. Karim Store', 'PHONE' with the value '0312 5556677', and 'CREDIT LIMIT IN RS. (OPTIONAL)' with the value '50,000'. There are also empty fields for 'EMAIL (OPTIONAL)' and 'ADDRESS (OPTIONAL)'. At the bottom of the form are two buttons: 'Cancel' and 'Save customer'. A small text note below the credit limit field reads: 'Bills that would take them over this are stopped unless a manager allows it.'

14 Customers

Every customer with what they owe. The bill icon on a row starts a new bill for that customer.

Zaman and Co BTK 📞 03443838294	Clear	📄

Making a bill

The main job of the app, from New Bill to the printed invoice.

15 Step 1: New Bill

Press New Bill. One empty line, today's date.

16 Step 2: customer and item

Pick the customer and the item: its fixed price fills in. For batch items the line shows which batches will be used: the earliest expiry first (50 from B-0911, then 10 from B-0926).

New Bill
Pick the customer, add items, enter what was paid.

CUSTOMER: Zaman and Co BTK • 03443838294
DATE: 21/09/2026
FROM GODOWN: Main godown

ITEM	QTY	PRICE	AMOUNT
5 kgs Can — Rs. 2,065/can	60	2065	Rs. 123,900

From Batch B-0911 - Exp 16-10-2026 × 50, Batch B-0926 - Exp 18-07-2027 × 10

+ Add another item

DISCOUNT (RS.): 0

NOTE (OPTIONAL): e.g. delivered by Rashid

Subtotal: Rs. 123,900
Total: Rs. 123,900
PAID NOW: 0
METHOD: Cash
Balance (credit): Rs. 123,900

Total Rs. 123,900 Rs. 123,900 on credit

Save Save & Print

17 Step 3: more lines, change a price

Add another item for each line. The tin price was changed to 6,500 for this bill only; the item keeps its normal price.

New Bill
Pick the customer, add items, enter what was paid.

CUSTOMER: Zaman and Co BTK • 03443838294
DATE: 21/09/2026
FROM GODOWN: Main godown

ITEM	QTY	PRICE	AMOUNT
5 kgs Can — Rs. 2,065/can	60	2065	Rs. 123,900
2.5 kgs Can — Rs. 1,037.5/can	300	1037.5	Rs. 311,250
15.7 kgs Tin — Rs. 6,535/tin	20	6500	Rs. 130,000

From Batch B-0911 - Exp 16-10-2026 × 50, Batch B-0926 - Exp 18-07-2027 × 10

+ Add another item

DISCOUNT (RS.): 0

NOTE (OPTIONAL): e.g. delivered by Rashid

Subtotal: Rs. 565,150

Expenses, cash and the daily sheet

Every rupee that goes out, moving cash to the bank, and closing the day.

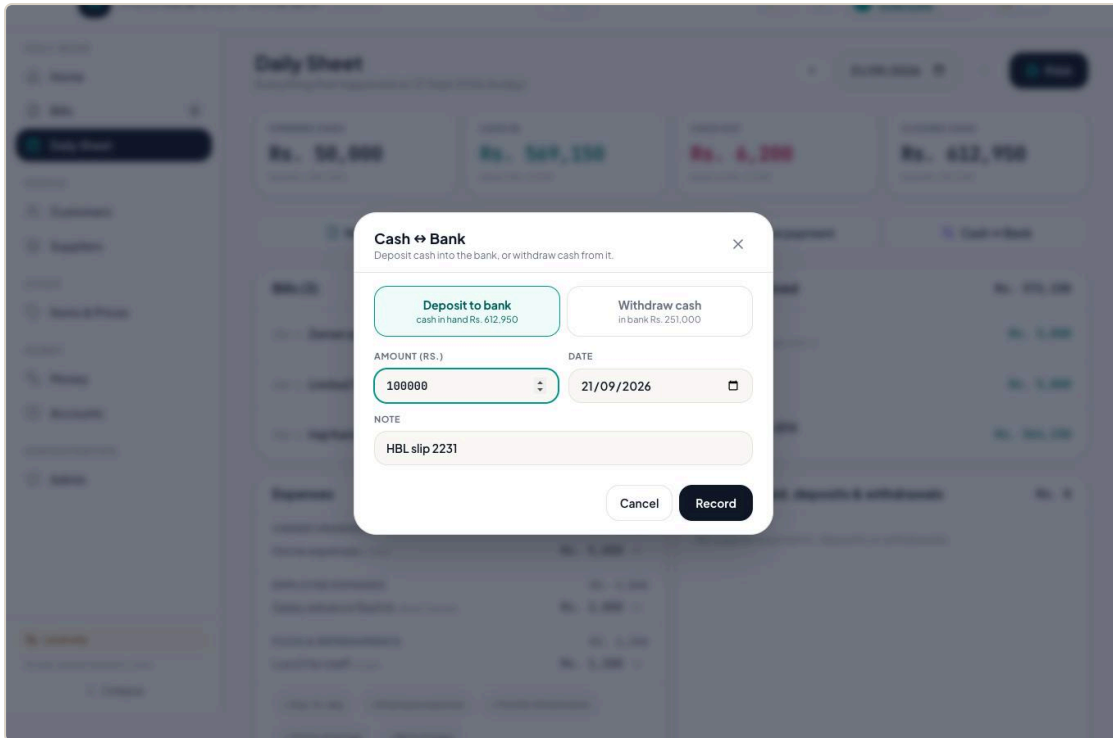

29 Add an expense

The category buttons on the daily sheet open the form with the category and date set. Each category is its own expense sheet. "Credit (unpaid)" records something you still owe.

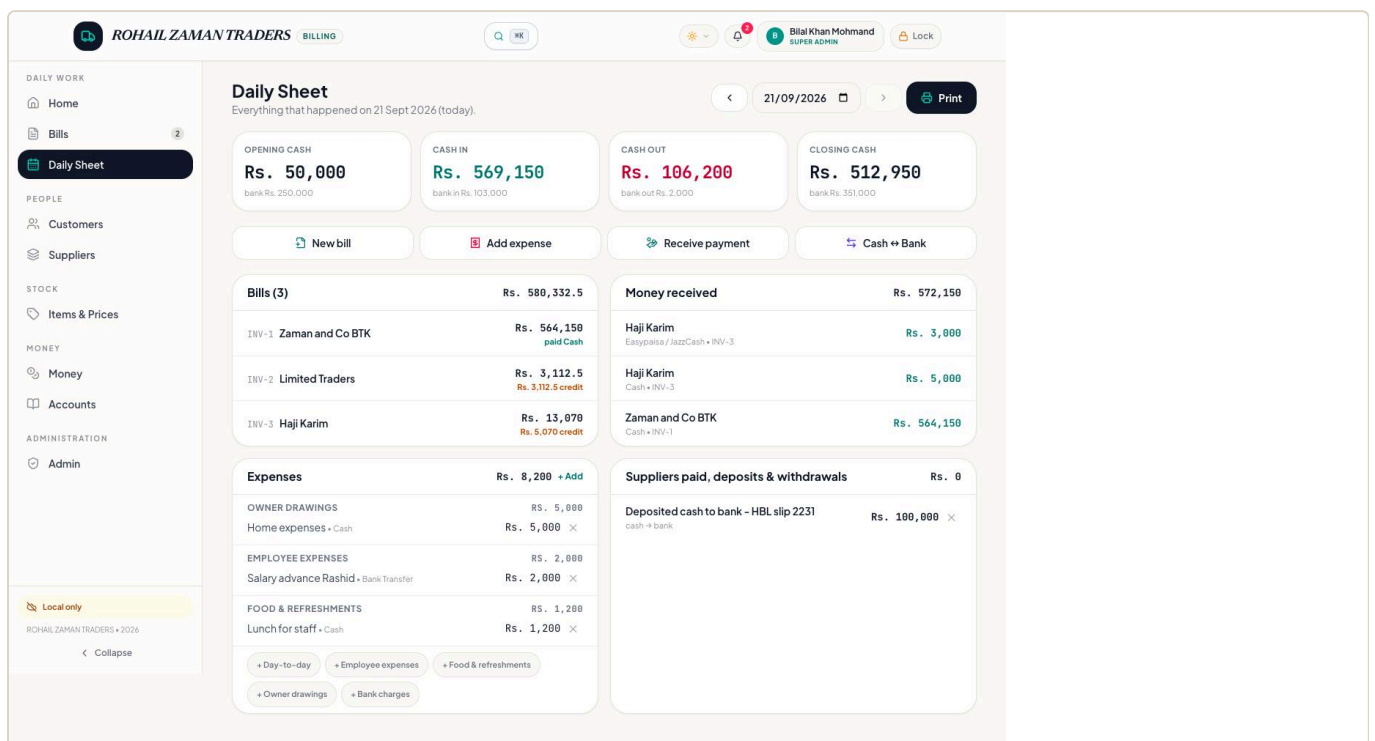

30 Cash ↔ Bank

Deposit cash in the bank or withdraw it. The buttons show what is in the drawer and in the bank; you can't move more than you have.

31 The daily sheet

One page for the whole day: opening and closing cash and bank, every bill, every rupee received, expenses by sheet, supplier payments and deposits. Count the drawer against "Closing cash".

32 Print the daily sheet

Print it at closing time, with Prepared by / Checked by lines.

Preview • use "Print / Save PDF" to print or export. [Print / Save PDF](#)

Money

How much is in the business, who owes you, and who you owe.

33 Where the money is

Cash in hand, bank, what customers owe you and what you owe: suppliers, unpaid expenses and any customer advances. "Money in the business" adds them up.

What staff see

The same app for a counter operator, with the owner-only parts hidden.

56 An operator's Home

Signed in as an operator: bills, payments, expenses and the daily sheet. No Accounts and no Admin in the menu.

57 An operator's Money screen

Cash, bank and who owes what are visible for daily work, but there is no Bank reconciliation tab, and nothing can be deleted.

The screenshot shows the 'Money' screen of the 'ROHAIL ZAMAN TRADERS' application. The interface includes a sidebar with navigation options: DAILY WORK (Home, Bills, Daily Sheet), PEOPLE (Customers, Suppliers), STOCK (Items & Prices), and MONEY (Money). The main content area is titled 'Money' and includes a sub-header 'How much is in the business, who owes you, and who you owe.' Below this, there are four summary cards: 'CASH IN HAND' (Rs. 50,000), 'IN BANK' (Rs. 250,000), 'CUSTOMERS OWE YOU' (Rs. 8,000), and 'YOU OWE OTHERS' (Rs. 45,000). A 'MONEY IN THE BUSINESS' section shows a total of Rs. 263,000, calculated as cash (Rs. 50,000) + bank (Rs. 250,000) + owed to you (Rs. 8,000) - you owe (Rs. 45,000). Below this, there are two tables: 'Customers owe you' listing 'Limited Traders' (Rs. 8,000) and 'You owe' listing 'Dalda Foods' (Rs. 45,000). The bottom of the screen shows 'Local only' and 'ROHAIL ZAMAN TRADERS • 2026'.

Who can do what

Built-in roles. An admin can change them under Admin → Roles.

TASK	OPERATOR	MANAGER	ADMIN
Make bills, take payments, add expenses, daily sheet	Yes	Yes	Yes
Move cash to or from the bank	Yes	Yes	Yes
Change item prices	No	Yes	Yes
Receive and move stock, manage godowns	No	Yes	Yes
Allow a bill over a customer's credit limit	No	Yes	Yes
Bank reconciliation	No	Yes	Yes
Accounts: journals, chart of accounts	No	Yes	Yes
Delete bills, customers, items, entries	No	Yes	Yes
Close a finished period, shop settings, backups	No	Yes	Yes
Add staff, set PINs, change roles	No	View only	Yes
Empty whole tables, factory reset	No	No	Super admin

Problems and answers

PROBLEM	WHAT TO DO
A bill won't save	The red message at the top says why: no item with a quantity, a negative price, a zero total, a future date, not enough stock (it names the godown or the expired batch), or over the customer's credit limit.
"Over the credit limit"	Take more payment now, or ask a manager to tick "Allow over limit" and give a reason.
"The books are closed up to..."	The accountant closed that period. Use today's date, or ask an admin to reopen it in Accounts → Chart of accounts.
Closing cash doesn't match the drawer	Check today's expenses have the right "Paid from", and that bank deposits went through Cash ↔ Bank, not as an expense.
Stock shows a minus figure	More was billed than was entered. Receive the stock, or correct the figure on the item (it is kept as a stock-count record).
Bank reconciliation won't say Reconciled	Look at the lines "not in your books" and add them, or tick cheques that have now cleared. Check the closing balance was typed from the statement exactly.
Bills on the counter PC aren't on the phone	Bottom left must say Cloud sync live on both. If not, run <code>supabase/setup.sql</code> once and check the two keys in Vercel.
Supabase says a table does not exist	Run the whole of <code>supabase/setup.sql</code> . It creates everything in the right order.
Forgot a PIN	Another admin resets it under Admin → User Accounts.
Printout looks cut off	In the print dialog choose A4, portrait, default margins, and untick headers and footers.
